

YBK ALL DAY

DIY: Design It Yourself

The year's just getting started, but we know how much you have to tackle already. With the eDesign Book Styles catalog, we're here to simplify the design process for you.

[This booklet](#) provides a sample of the Book Styles and their templates, plus fonts and color palettes. Once you hop into eDesign, you'll want to head to the Catalog tab to find each book style and all the available templates.

BOOK STYLE SPOTLIGHT

Moments: This book style showcases a more monochromatic color palette with an emphasis on squares and lines. And, there are 50 templates for quick customization of fonts and colors. Check out this DIY from Plant City High School in Plant City, FL. Using their own school colors, they started with the Moments cover and made it their own. And, we love the Suede lamination and Raised UV, too!

Now: Using the duotone feature in Canva, the Now book style gives a fun pop of color with a bright palette. Focusing on a vertical design, these templates include 40 options and 18 mods to build your own spreads. Everman HS in Everman, TX, incorporated their own duotone images.
